

MANIFESTO

Plans For Ijebu North State Constituency 1

PRINCE ABDULRASHEED
KASHAMU

INTRODUCTION

There are not many ways to have the opportunity to impact lives and societies on a broad scale and leave a lasting legacy. Joining politics is part of the few.

My name is Prince Abdul Rasheed Kashamu, Chairman & CEO, Business and Investment Advisor, Philanthropist and Motivated Politician. It is with great interest and humility that I present to you the people of Ijebu; my plans and interest in being of service at Ijebu North State Constituency 1.

Vision and Values

My ultimate ambition is to be an influential leader in the private and public sectors. My vision as a State House of Assembly Member for Ijebu North State Constituency 1 is great all-around development. I want to create more avenues for the empowerment of my people and develop our great constituency.

I am strongly committed to good governance, justice, equality, empathy, integrity, transparency and accountability; with an interest in education, entrepreneurship, technology and digital skills and economic and community development.

Peace and Security:

To continue to enjoy a serene environment, and better peace and security in our community, I will focus on crime and conflict prevention through community policing by working with our traditional rulers and security agents.

Economy:

Our primary economic activities in Ijebu North are trading, lumbering, farming and hunting. I will support policies that will bring about development and improvement in these economic activities.

Food and Farming:

Increasing our agricultural production and development in Ijebu North means a better economy for us as agriculture constitutes a large part of our activities. Inadequate water supply, lack of training, and loan and storage facilities are the pressing issues being faced by farmers. If elected I will work hard to address these issues by ensuring more agricultural extension workers reach farmers, encouraging the government to build more dams, creating friendly loans for farmers and spreading more awareness about modern research and inventions in the agriculture sector.

To increase our agricultural production, I will also encourage the government to provide a subsidy of good quality seeds and fertilizer, teach and encourage lumberers good practice tree falling, and create land banks to help with land availability.

Education:

In Ijebu North, we boast of quality education and many schools. While we have many schools and quality education in some schools, some things are still lacking.

I will make sure our education system becomes better by ensuring schools in Ijebu North teach quality education.

I will ensure primary and secondary schools inspire and teach each young person farming, vocations, and digital skills for young people to build up their interest early.

I will also encourage the government to provide schools with learning facilities and materials and provide scholarships and grants for exceptional students, supporting vocational learning in schools and businesses, and encouragement of students to learn in-demand tech and digital skills.

Infrastructure:

Having more long hours of electricity, better roads, and improved water distribution will surely make operations easier for our artisans, farmers, the pommo industry, the Ijebu Igbo abattoir, timber business, market traders, and other business people.

I will encourage the government to build good road networks connecting our community to cities and I will support policies that will improve water distribution and constant electricity.

Welfare and Health:

I will ensure we create more social activities in Ijebu North, activities such as sports and movie centres. We will also have better and more affordable healthcare for all of Ijebu North; the primary healthcare will have good supplies and workers will be trained often for them to deliver quality care to children and adults at all times.

Employment and Empowerment:

We are entrepreneurial in Ijebu North; I will create more jobs by supporting artisans, market traders, farmers, businesses, youths, men and women with friendly loans and skill acquisition programmes.

I will also encourage the government for the renovation and maintenance of markets, and Ijebu Igbo abattoirs and to also build modern markets and abattoirs to provide jobs for more people.

My Plans will be Achieved through:

I will interact, listen and work with all the stakeholders in our community for our easy progress.

Supporting policies that will bring about development and improvement in farming and agriculture, entrepreneurship, education and artisanship.

Promoting community policing and bringing our traditional rulers and community leaders into the roles of security of lives and properties in our various communities.

Building of lasting infrastructures and regular maintenance of infrastructures in Ijebu North.

Reviving sports, movie centres, tourist attractions and other social services by encouraging government investment.

Building of dams for adequate water supply, creation of friendly loans, land banks, subsidised quality seeds, storage facility and extension services to end farmers' plight in the community.

Teaching and encouraging lumburs to always practice good tree-falling processes. Also encouraging the government to invest in the planting of foreign trees.

My Plans will be Achieved through:

Ensuring primary and secondary schools young people learn farming, vocations and digital skills to build up their interest early. Provision of scholarships and grants for exceptional students.

Encouraging the government to build good road networks connecting our community to cities and supporting policies that will improve water distribution and constant electricity.

Ensuring we have more social activities in Ijebu North, activities such as sports and movie centres.

Ensuring healthcare has good supplies and frequent training for the workers will be trained often for them to deliver quality care to children and adults at all times.

Creating more jobs by supporting artisans, market traders, farmers, businesses, youths, men and women with friendly loans and skill acquisition programmes.

Ensuring the renovation and maintenance of markets, abattoirs, busy places and building of modern markets and abattoirs for more job opportunities.

Conclusions

I am fully committed and pledge to serve Ijebu North State Constituency 1 in your best interest at all times through proactive and quality legislation, excellent representation and responsive oversight functions.

If elected, I will represent the specific interests of my constituents and as a representative of my local government consider its needs as a whole. My duties and obligations are to Ijebu North State Constituency 1.

I have the knowledge, energy, and team and now I need YOUR SUPPORT AND PRAYERS.

If given the needed support to emerge as a winner at the general election of 2023; I will not fail you. For better Ijebu North State Constituency 1!

.... *Do I have your support?*
